

NRMC wants to welcome Canadian Patients

Northern Rockies Medical Center's vision is to be the provider of choice in our region. This means we are opening our doors to our neighbors in Canada to help facilitate a faster alternative to receiving health care services.

We have created a concierge service to help you from beginning to end; to meet all your needs from the clinic visit to the lab, CT, and MRI services you need.

NRMC will guide you through consultation, diagnosis and even treatment plan.

One phone call can provide you with all the information and guidance needed to make it easy to obtain healthcare services quickly.

We can get you the care without the wait!

Call today to get information on pricing estimation and payment options.

That's what we mean by the "Right Care, Right Here".

Accommodations and Resources

There are lodging and dining options available in and around Cut Bank. Our concierge will be available to help in directing you and provide guidance on accommodations in and around our community.
